Jessica Dent, *Alabama Department of Economic and Community Affairs*
Douglas O. Allen, *TEI Engineers & Planners*
Kent L. Black, *TEI Engineers & Planners*

A key component assisting with development of the Alabama Scenic Byway Program Manual was the peer state review. Alabama wanted to capitalize on the experience of states with successful scenic byway programs. Where appropriate, key elements from these programs were incorporated into the Alabama Scenic Byway Program Manual. Special thanks is extended to the following states and their Scenic Byway Coordinators for assisting with the development of this Program Manual: Florida, Georgia, Colorado, Maine, Wisconsin, Maryland, Kentucky and Kansas.
